

WESTERN MAINE MATTERS MISSION STATEMENT

The mission of Western Maine Matters is to preserve, protect, and enhance the environment and ecology that is the fundamental basis of our economy, and a critical component in quality of life for all Maine residents and visitors.

To this end, we share the following objectives:

- To improve and preserve ‘Quality of Place’ as our single most valuable regional asset.
- To be responsible stewards of Western Maine’s environment, including land, water, and air resources, by supporting traditional uses and recreational activities that are vital to the economy, but not harmful to the ecology.
- To research and communicate the historical background of contemporary issues that concern Western Maine residents.
- To communicate concerns, provide informed input to, and hold accountable all federal, state and local officials, departments, and elected representatives whose decisions affect Western Maine.
